

MULTI LIFE SAVERS FOR THE LESS PRIVILEGED FOUNDATION

2025 ANNUAL IMPACT REPORT

Introduction

The year 2025 was another remarkable year of growth, resilience, and transformative impact for Multi Life Savers for the Less Privileged Foundation. Guided by our unwavering commitment to restoring hope and creating opportunities for vulnerable individuals and communities, we continued to expand our reach and deepen our interventions across education, healthcare, youth empowerment, livelihood development, humanitarian assistance, sports development, and community welfare.

Despite persistent socio-economic challenges, the Foundation remained steadfast in delivering sustainable, people-centered programmes that addressed immediate needs while equipping beneficiaries with the skills, resources, and opportunities to build better futures. This report highlights the collective achievements made possible through the dedication of our staff, volunteers, development partners, donors, and community stakeholders. Together, we continued to empower lives, strengthen communities, and inspire lasting change across Nigeria.

Every life touched during the year represents our shared belief that sustainable development begins with investing in people, creating opportunities, and restoring dignity to those who need it most.

Executive Summary

Throughout 2025, Multi Life Savers for the Less Privileged Foundation continued to advance its mission of transforming lives through impactful and sustainable community development programmes.

Building on the successes of previous years, the Foundation expanded initiatives in digital skills development, educational support, healthcare delivery, humanitarian assistance, livelihood empowerment, water and sanitation, and youth development. Thousands of beneficiaries across diverse communities gained access to opportunities that improved their quality of life and strengthened their capacity for long-term self-reliance. Our youth empowerment programmes continued to equip young people with relevant digital and entrepreneurial skills, preparing them for emerging opportunities in today's technology-driven economy. Educational interventions ensured that vulnerable students remained in school and pursued their academic aspirations through scholarships, examination sponsorships, and comprehensive learning support.

Healthcare programmes provided life-changing medical assistance, preventive healthcare services, maternal support, and community medical outreaches, while humanitarian initiatives delivered food relief and welfare assistance to vulnerable households facing economic hardship.

The Foundation also strengthened livelihood programmes by empowering women and young entrepreneurs with vocational equipment, business support, and income-generating opportunities. Investments in sports development and community welfare further promoted youth engagement, social inclusion, and healthier communities.

The achievements presented in this report demonstrate our unwavering commitment to sustainable development and reaffirm our belief that strategic partnerships, innovation, and compassionate service remain essential to building resilient communities and creating lasting social impact.

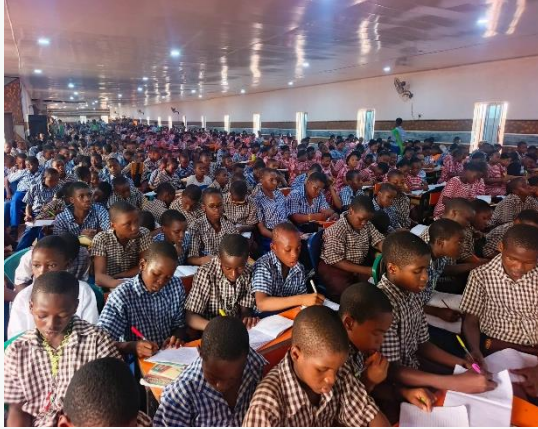

Education and Scholarship Support

Education remained one of the Foundation's highest priorities in 2025. Through its scholarship and educational assistance programmes, Multi Life Savers for the Less Privileged Foundation invested over ₦400 million to support vulnerable learners across Nigeria.

During the year, the Foundation awarded scholarships and educational support to:

- * 300 university students
- * 309 secondary school students
- * 600 primary school pupils

These interventions ensured that financial challenges did not prevent deserving students from accessing quality education and pursuing their academic goals.

Unique and Fine College

As part of its long-term commitment to educational excellence, the Foundation made a separate investment of over ₦656 million in Unique and Fine College.

This investment supported student scholarships, subsidized school fees for indigent families,

institutional development, and the completion of four new infrastructure projects, providing a more conducive learning environment and strengthening the school's capacity to deliver quality education.

Healthcare Interventions

Healthcare remained a major pillar of the Foundation's humanitarian work in 2025.

The Foundation invested over ₦450 million in healthcare interventions, ensuring that vulnerable individuals had access to quality medical care regardless of their financial circumstances.

During the year:

- * More than 900 individuals benefited from healthcare support and medical assistance.
- * Seventeen (17) beneficiaries received funding for critical surgical procedures and specialized medical treatment, helping to restore health and improve quality of life.

These interventions were delivered through partnerships with healthcare institutions and direct financial support for patients requiring urgent and life-saving medical care.

Food Relief and Humanitarian Assistance

Responding to the growing economic challenges faced by vulnerable households, Multi Life Savers for the Less Privileged Foundation significantly expanded its food relief and humanitarian assistance programmes throughout 2025.

The Foundation distributed food items, groceries, and other essential household supplies to vulnerable families, widows, elderly persons, persons with disabilities, orphaned children, and low-income households across various communities. Seasonal food interventions, emergency relief distributions, and community outreach programmes ensured that thousands of beneficiaries had access to nutritious meals during periods of hardship.

Beyond food distribution, the Foundation also provided welfare support to families affected by emergencies and other vulnerable groups, helping to improve household well-being and reduce the burden of food insecurity.

Shelter and Housing Support

The Foundation remained committed to restoring dignity by providing safe and decent living conditions for vulnerable individuals and families.

Throughout the year, financial assistance was provided to beneficiaries for the payment of house rent, preventing homelessness and ensuring families had secure accommodation. The Foundation also invested in the construction, renovation, and completion of residential buildings and community infrastructure for less-privileged individuals.

These interventions provided vulnerable families with improved housing conditions, enhanced safety, and greater stability, while contributing to stronger and more resilient communities.

Healthcare Interventions

Healthcare continued to be one of the Foundation's most impactful areas of intervention in 2025.

The Foundation invested over ₦450 million in healthcare services, ensuring that vulnerable individuals received timely and quality medical care regardless of their financial circumstances.

Working with AMEN Clinic and several partner hospitals, the Foundation funded medical consultations, laboratory

investigations, medications, emergency treatments, hospital admissions, maternal healthcare, and specialized medical procedures.

During the year:

- * Over 900 individuals received healthcare support.
- * 17 beneficiaries received funding for major surgical procedures and specialized medical treatment, both within Nigeria and abroad. Through these interventions, the Foundation restored hope to patients, improved health outcomes, reduced preventable deaths, and eased the financial burden of medical care on vulnerable families.

Water Provision and Community Welfare

Access to clean, safe, and affordable water remained a key priority of the Foundation.

Through Aqua Rapha Investment Limited, communities continued to benefit from the provision of quality water at highly affordable rates. The initiative served schools, healthcare facilities, households, businesses, and underserved communities, ensuring that clean water remained accessible to thousands of people.

By reducing the cost of water and improving its availability, the programme contributed significantly to improved hygiene, disease prevention, environmental sanitation, and overall public health.

The Foundation also supported various community welfare initiatives aimed at improving the quality of life of vulnerable populations through strategic humanitarian interventions and community development projects.

Livelihood and Economic Empowerment

The Foundation continued to empower vulnerable individuals with practical tools and resources to achieve economic independence. Women, youths, and low-income earners received vocational equipment, business support, and start-up resources to establish or expand their small businesses. These interventions enabled beneficiaries to generate sustainable income, support their families, and improve their standard of living.

The Foundation believes that economic empowerment remains one of the most sustainable pathways to reducing poverty and promoting long-term community development.

Sports Development – Football Academy

The Foundation continued to use sports as a platform for youth empowerment, leadership development, and social inclusion through its Football Academy.

During the year, over 100 young athletes benefited from comprehensive support, including payment of school fees, accommodation, feeding, professional football

training, mentorship, healthcare, sports equipment, and educational support.

The Academy provided a safe environment where talented young people could develop academically, socially, and athletically while pursuing opportunities for professional careers in football. Through this holistic approach, the Foundation continues to nurture disciplined, confident, and responsible young leaders while creating pathways for sporting excellence both nationally and internationally.

Conclusion

The achievements highlighted in this report reflect the unwavering commitment of Multi Life Savers for the Less Privileged Foundation to transforming lives, restoring hope, and creating lasting opportunities for vulnerable individuals and communities.

Throughout 2025, the Foundation made significant investments in education, healthcare, youth empowerment, humanitarian assistance, housing, water provision, livelihood development, and sports. These interventions not only addressed immediate needs but also laid the foundation for sustainable growth, self-reliance, and improved quality of life for thousands of beneficiaries. None of these accomplishments would have been possible without the generous support of our Founder, partners, donors, volunteers, staff, government agencies, and community stakeholders. Their shared vision, dedication, and commitment continue to drive our mission of building stronger, healthier, and more resilient communities.

As we look to the future, we remain committed to expanding our reach, strengthening strategic partnerships, embracing innovation, and delivering even greater impact. We believe that every life transformed creates a ripple effect that strengthens families, uplifts communities, and contributes to national development. Together, we will continue to empower lives, restore dignity, and build a future where every individual—regardless of background or circumstance—has the opportunity to thrive.

Multi Life Savers for the Less Privileged Foundation remains steadfast in its mission of changing lives, one community at a time.
